EOPR: End of Project Reflection

1. Explain the process you went through to create your final piece. Recall steps and activities, as well as your own personal process.
2. Where and how were you most successful? What challenges did you encounter throughout your project?
3. What did you learn about yourself through the process of this project?
4. What would you change or redo for your project? Explain why and how.
5. If I, Miss T, were to teach this lesson over again, what would you change, add, or take away? And no, you cannot take away the whole project as your answer.
